#nodeathpenalty

I stand against the death penalty because it creates another set of victims	I stand against the death penalty because it violates a person's right to life	I stand against the death penalty because it targets those with mental disorders	I stand against the death penalty because it denies rehabilitation to the offender	I stand against the death penalty because it is irrevocable and not safe from error	I stand against the death penalty because it goes against the international trend towards abolition
I stand against the death penalty because it diverts resources from more efficient law enforcement.	I stand against the death penalty because it is inhumane, degrading and cruel	I stand against the death penalty because it does not deter violent crime	I stand against the death penalty because no state should have the power to kill	I stand against the death penalty because life on death row is torture	I stand against the death penalty because it is applied arbitrarily
